

## Expect Great Things!

- ⇒ SMART Board™ interactive technology in all classrooms.
- ⇒ Student Produced STEM-TV
- ⇒ Digital Photography & Imageblender Productions
- ⇒ Palm Technology
- ⇒ Gifted Program
- ⇒ Before and After School Enrichment Program
- ⇒ AIMS Days (Activities Integrating Math & Science)
- ⇒ REX Club & Sunshine State Readers
- ⇒ Accelerated Reader
- ⇒ Odyssey of the Mind
- ⇒ Active PTO & SAC
- ⇒ Student Ambassadors
- ⇒ Rhythm Keepers Chorus
- ⇒ Edgate Teacher Websites
- ⇒ FAME Multi-Media Projects
- ⇒ Technology-based Student Response Systems
- ⇒ School Uniforms Required

Franklin Park Magnet School serves as the elementary level for the Academy for Technology Excellence which also features Ft. Myers Middle Academy and Dunbar High School. These three schools are the recipients of a 3.3 million dollar grant from the federal government to enhance and expand technology offerings. Our staff brings dynamic, successful and innovative teaching to the students. Our goal is to enable students to become technology literate, critical thinkers, cooperative workers, problem solvers and community leaders.

## Who We Are!

Franklin Park is a pre-kindergarten through fifth grade **Information Technology** magnet school with various technologies completely integrated in the teaching of core academics. The instructional program is enhanced by the use of SMART Board interactive technology in every classroom. Not only are students taught how to use various technology applications, such as desktop publishing, presentations, word processing, digital photography and the use of hand held devices, they are enthusiastically taught reading, writing, mathematics, science and social studies with complete technology support.

Administrators Vonnie Bryan and Karen Manzi, along with Magnet School Lead Teacher, Amy Rothenberg and Technology Specialist, Greg Meisel provide the leadership, inspiration and technical support to teachers in the classroom so that technology is integral to student success.

## THE Choice for the Twenty-first Century!!!

Franklin Park Magnet School is on the move. According to the State of Florida Grading System, Franklin Park has improved and maintained its state accountability grade over the past several years. A tight academic focus, in conjunction with an enthusiastic, high energy staff provides students with excellence in the areas of technology and core academics. At Franklin Park, students and parents can expect to receive the highest quality elementary education.

## Technology: Connecting Curriculum & Technology

At Franklin Park Magnet School, students are offered a technology-rich environment, in which they learn technology applications and software as well as core academic subjects. Teachers work diligently and creatively to fully integrate the use of technology in all subject areas.

## Why Technology?

**To live, learn, and work successfully in an increasingly complex and information-rich society, students and teachers must use technology effectively. The world is different. Kids are different. Learning is different and teaching must be different, too!**
